Cast / wrought iron: declining stock, older incident pipes

Annual records describe operating mileage; incident reports describe pipe age at the time of the incident.

Left: annual inventories, 1990–2024. Older forms cover 1990–2009; rate comparisons use 2010–2024.

Right: 722 main reports in 2010–2026; 653 known ages, 69 unknown. Boxes span the middle 50%; whiskers show the full range.

Numbers are median known ages. Inventory and incident ages describe distinct populations.
